WE FOCUS ON SAFETY

The Professional Safety Apparel Suppliers

About GSS Safety

GSS Safety is a manufacturer specializing in a variety of **ANSI/ISEA** approved Hi-Visibility apparel including vests, T-shirts, waterproof jackets, waterproof rain gear, accessories, and more. Our goal is to constantly strive to protect workers from serious hazard of low visibility.

Our products have been tested by most International standards like **ANSI/ISEA 107-2015, NFPA 701-2004**. We offer many styles and designs that will satisfy the needs of many customers. By being a direct manufacturer, we can provide fast turnaround which allows us to have more capability in serving our client's specific needs. We also can provide private labeling, logo imprinting, custom designs and unique packaging upon request.

If you have any questions or would like to have a catalog, please feel free to contact us at sales@GSSsafety.com your earliest convenience.

Product Icon Key									
ANSI/ISEA 107-2015	TEFLON COATING	MOISTURE WICKING	BIRDSEYE MATERIAL	MESH MATERIAL	RIP STOP MATERIAL	FLEECE LINER	WATER RESISTANT	THREE IN ONE ITEM	DOWN FILLING

COLORFUL PPE

WE STAND OUT FROM THE CROWD

Reasons why we need colored garment

INCIDENT COMMAND SAFETY VESTS IN ALL COLORS

In emergency situations it's important for people to quickly identify groups of emergency responders and volunteers in a certain area. Incident command vests allow different groups to wear uniquely colored reflective vests so they can be easily identified by teams, volunteers, or civilians. This is crucial when tensions are high, and fight or flight emotions are running high during critical emergencies or accidents.

CORPORATE COLORS FOR COMPANY IDENTITY

Research has revealed that a signature color can increase brand recognition by 80%. Even without seeing their logo, most people could recognize a Starbucks' drink by its characteristic green straw. According to Reboot's study, when shown a selection of five made up company logos 78% could recall the primary color of the logo . compared to only 43% who were able to remember the name

DIFFERENT COLORS FOR DIFFERENT GROUPS IN WORKING FIELD

We see more and more company use colorful vests in the work field to identify the different group of people. It is more efficient for coworkers and supervisor to know their group. For example, in Amazon warehouse, people wear red colored vests for all new hires and then switch to lime vests after the complete their training.

BEYOND THE BASICS

ONYX collection offering high performance fabrics and unique designs. This collection offers quality with excellent value plus feature-filled styles. From snag protection ratings to ripstop and teflon coating, **ONYX** is the go-to brand for functional reflective apparel with optimal comfort and performance.

INNOVATION FOR BETTER COMFORT

- Ripstop fabrics are woven fabrics, often made of nylon, using a special reinforcing technique that makes them resistant to tearing and ripping.
- Comfort Reflective Tape provides more flexibility over solid tape.
- Teflon Coated Fabrics treated for repellency fight off dry soil and nasty, unpredictable spills and splashes, allowing liquids to bead up and roll off. Liquid spills can easily be wiped away when blotted with a clean cloth, and dry soil can be brushed off easily.
- Mix & Match A double zipper system connects the inner coat with outer shell. Matched pants available too.

ANSI/ISEA 107-2015 INFORMATION

The 2015 revision of ANSI/ISEA 107 combines the previously separate 107 and 207 standards into a single document for administrative simplicity. The new version includes a "Type" structure that keeps off-road ("Type O"), roadway ("Type R"), and public safety ("Type P") garments separate by application, and more closely aligns with the definitions and implementation of the U.S. Federal worker high visibility regulation residing in the Manual on Uniform Traffic Control Devices (MUTCD). Under the new standard, any Type R roadway garments are compliant for workers on or near a public access roadway, and Type P public safety garments add a compliance option for emergency and incident responders.

QUARTZ

QUARTZ is a NEW collection starting 2020 that specialized in combining functional workwear with high visibility. We understand the importance of visibility for all field workers. To be seen is and will continuous being our mission to protect more field workers and more industries. In the **QUARTZ** collection, you will find more daily workwear built in with reflection and visibility material. The fabric we pick will all have Cotton blended with other fiber/yarn. In the past years, we have heard more and more field workers stating cotton is the best fabric for workers even though the polyester provided more wicking, breathability and other facts . We will keep sourcing and inventing new comfortable garments for daily field workers.

we have moved to a new warehouse

Our New Premises

We are excited to announce that we moved to the new facility at 1261 Claremont Rd, Carlisle, PA 17015 since June 1st 2018.

The larger facility provides much more warehouse space to support our growth. We look forward to providing our customers with better customer service and fast delivery in the future.

Your support and continued partnership is valuable to us. We thank you for everything you do and look forward to many new opportunities for continued growth.
